Jidnyasa Sonavane

Data Analyst | Power BI • SQL • Python | Data Analytics &
Visualization

Pune, Maharashtra, India

Summary

I am a Data Analyst with hands-on experience in Power BI, SQL, and Python, passionate about transforming data into actionable insights. I design analytical solutions, build interactive dashboards, and perform exploratory data analysis to support data-driven decision-making.

I have completed projects including a Power BI dashboard analyzing Spotify data to extract listener trends and a predictive analytics model for climate-based crop resilience. I am skilled in data cleaning, visualization, and communicating insights clearly to stakeholders.

Currently seeking entry-level opportunities as a Data Analyst or BI Analyst where I can apply my analytical skills, learn from real business data, and contribute to impactful solutions.

Experience

The Developers Arena

Data Science Intern

May 2025 - October 2025 (6 months)

Completed a 6-month internship focused on developing practical skills in data analysis, visualization, and predictive modeling.

Worked with real-world datasets to understand data preprocessing, feature selection, and insights generation.

Gained exposure to Python (NumPy, Pandas, Matplotlib, Seaborn) and machine learning concepts using Scikit-learn.

Strengthened understanding of data storytelling, EDA (Exploratory Data Analysis), and model evaluation techniques.

Collaborated within a developer community to apply analytical thinking to problem-solving tasks

Implica Global Corporation
